

PLANTS

The amazing world of plant is all around us.

Plants are found everywhere.

There are many kinds of plants.

Some are big and some are small.

They are of different sizes, shapes and colours.

Like humans and animals, plants are also living things.

They do not move but they grow.

Plants need air, water sunlight and soil to grow.

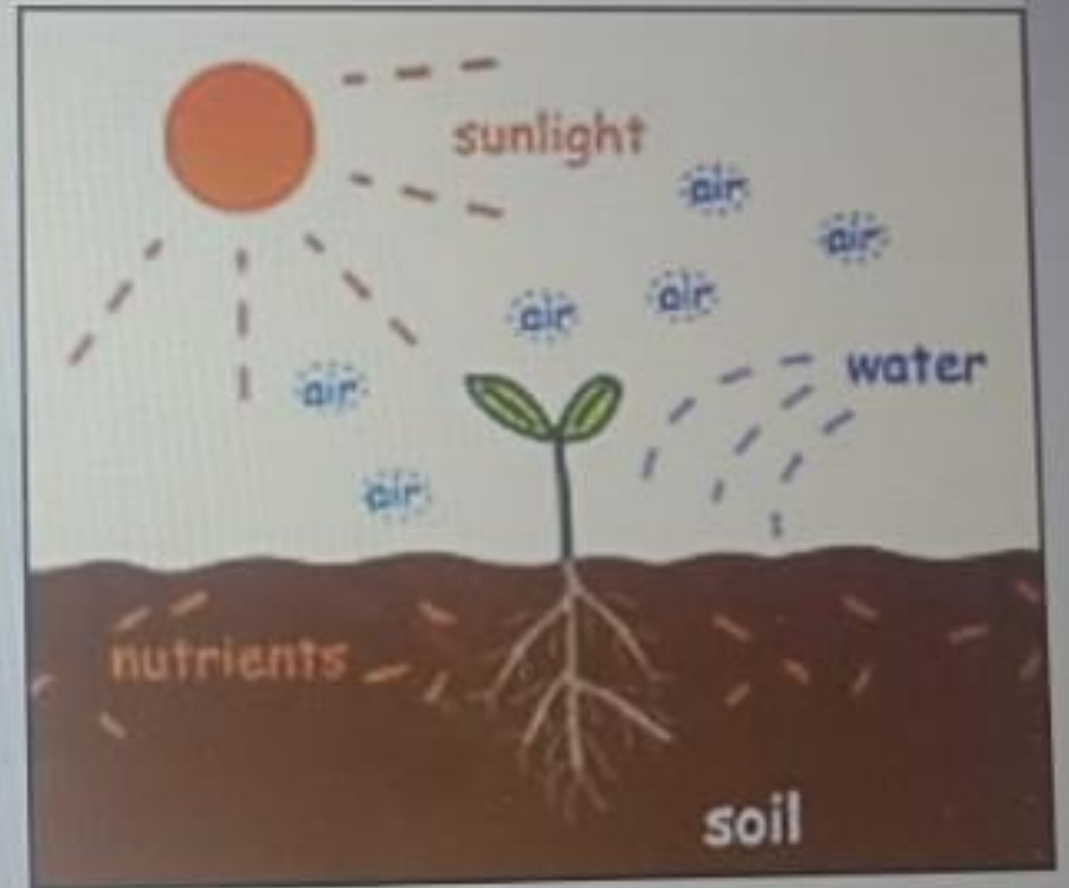

Write all these

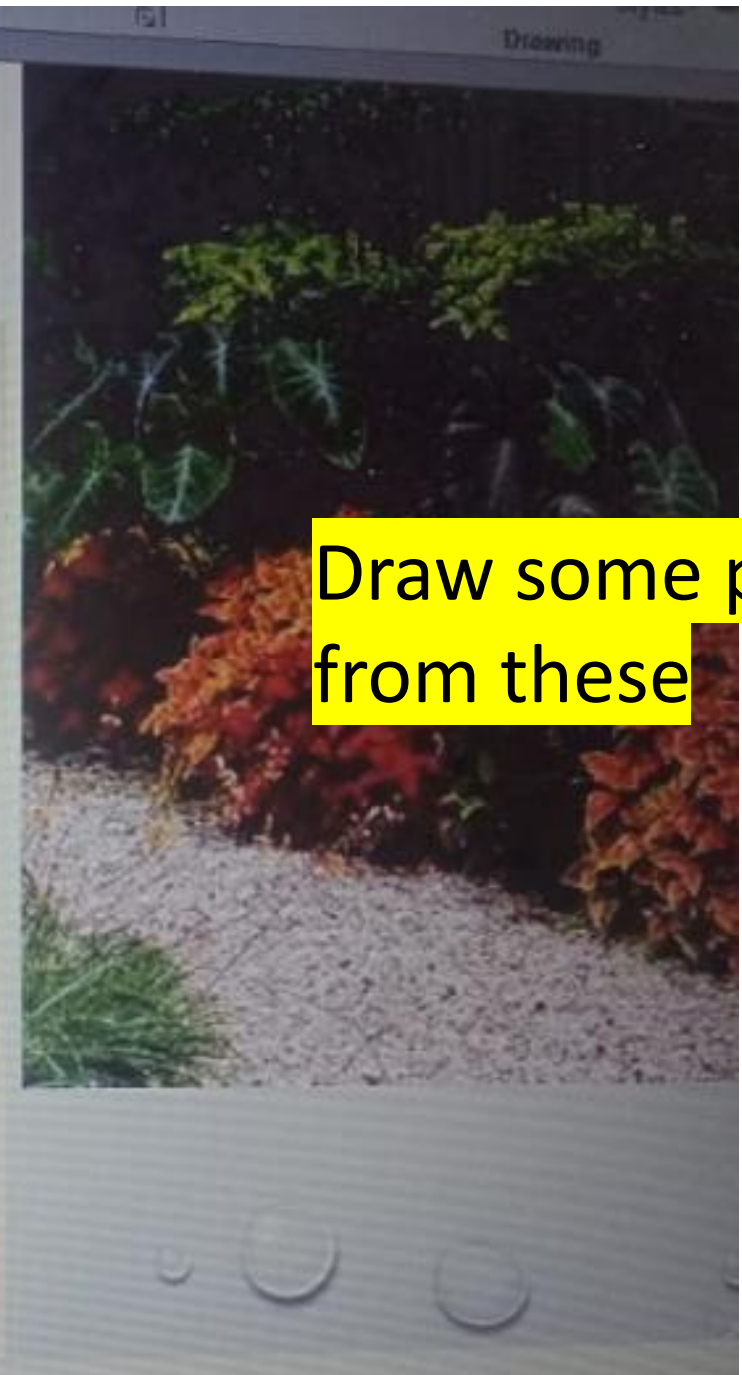

➤ *All the plants need sun, air, water and soil to grow.*

Draw and Write

All Plants Need:

- Sun
- Air
- Water
- Soil

Draw some plants
from these
